RED FORTERA™ TOPICAL INSTANT MALE VIRILITY ENHANCER

Red Fortera™ Topical is a unique patented formulation designed to help improve male virility, enhance sensation and improve the feeling of firmness. You will FEEL and SEE a difference starting with your very first application and you will be amazed at how Red Fortera™ Topical maximizes your pleasure and makes every "experience" stronger.

RECOMMENDED USE:

Massage a quarter-sized dab directly onto penis for approximately 5-10 minutes or immediately prior to engaging in stimulation.

PRECAUTIONS:

For external use only. Avoid contact with eyes and broken or inflamed skin. Keep out of reach of children. DO NOT SWALLOW. In case of accidental internal ingestion, seek professional assistance. Individual results may vary. Red Fortera™ Topical is not intended for use by pregnant/nursing women or women trying to conceive. This is not a contraceptive nor does it prevent pregnancy or the spread of STDs. This product has not been tested for STD safety. Red Fortera™ Topical is made of an ionized water-based formula. Although water-based formulations can typically be used safely with latex condoms, Red Fortera™ Topical has not been tested to determine its effects on condom strength.

“The first time I tried it, I felt an intense warming sensation, but I got the strongest feeling I've had in years! I was very sensitive the next day but I had to try it again - it was better! Tried it last night and it was great! Just a little goes a long way with me but I have to say it has me "in the mood" all day long!

- John S.

“My experience with this topical has been amazing! I felt exactly what the topical said I would feel, and now I have increased libido and the best experiences ever!

- Emmanuel A.

“I have only been using it for one week and I can already tell there's an increase in libido. My wife has noticed the difference - and that is telling the sign that it works. I was skeptic about a topical, but I am a believer now.
